

LASER ENGRAVING PRICES

Pricing does not reflect any disassembly/reassembly (gunsmith) work or re-finishing.

- All engraving options can be done before, after or without re-finishing.
- Most metals including stainless steel, aluminum, brass, silver, copper, etc., along with some plastics, faux/real leather and most unfinished wood are materials we can laser on.
- If the item getting lasered is not well known to accept fiber laser engravings, we can NOT guarantee the effect/outcome/result the laser will produce and are free from any liability or replacement. If you choose to proceed on said materials we will do our best to achieve a satisfactory outcome.
